TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, HTML, CSS
Frontend: React.js, Vue, Vite
Backend: Node.js, Express.js, PHP, REST APIs, Authentication & Role-Based Access
Databases: PostgreSQL, MySQL, Supabase, Prisma
Tools & Platforms: Git/GitHub, Vercel

PERSONAL PROJECTS

MediCare - Hospital Management System [Live demo](#) | [GitHub](#)
React | TypeScript | Node.js | Express.js | Prisma | PostgreSQL | Vercel

- **Built a full-stack hospital management system** with modules for patients, appointments, doctors, laboratory, and pharmacy.
- Implemented **authentication and role-based access** for eight user roles: administrators, doctors, nurses, receptionists, laboratory technicians, pharmacists, accountants, and patients.
- Deployed the application live on Vercel.

MOVA - Mobility & Recovery Platform [Live demo](#)
Sep 28 - Oct 2, 2026

- **Built and shipped MOVA**, a free mobility and recovery platform with guided routines for mobility, flexibility, recovery, and performance.
- Designed routines around **how the user feels and the time they have**, making daily movement practice quick to start.
- Completed from concept to a fully working, **live deployment on Vercel in five days**.

EXPERIENCE

Six Code 2026 - Present
Software Development Trainee

- Built hands-on web development projects covering programming fundamentals, problem-solving, and collaborative development practices.

Open Source Kigali 2026 - Present
Open Source Contributor

- Contributed **frontend improvements** to an open-source web project using React, Git, and GitHub; reviewed and tested changes before submission.

React.js Rwanda Jan 2026 - Apr 2026
React.js Developer Trainee

- Built React.js applications using component-based architecture, state management, and responsive interfaces.

EDUCATION

Bachelor of Computer Science, University of Kigali 2025 - Present

CERTIFICATES

Software Development, Six Code 2026
React.js, React.js Rwanda 2026
Computer Science (C55x), Harvard 2026
Software Development, Saltel 2024
